

Alto Sax & Tenor/Baritone

first connection / mouthpiece to bocal

lefreQue

dutch original sound solution

position lefreQue

Alto Sax with ultimate band

From Tenor and lower
better use the 41 mm

Start with the material of your instrument or a higher quality. For Saxophone that could be brass or red brass. The solid silver has the best price-quality ratio. You can go up to 24 k solid gold.

materials

33 mm or 41mm
lefreQue

From Tenor and lower
better use the 41 mm !!!!

+

55 mm Ultimate Band

Artikel Nr. 219101

or +

55 mm Elastic Band

Artikel Nr. 219075

How to try:

Individual exercises

- Play a chromatic scale (long notes without vibrato). Play it with, without and then with lefreQue again. Pay attention to intonation and evenness of tone production.
- Play octaves. Play it with, without and then with lefreQue again. Listen to your tone as if you play a duet with your own overtones. Pay attention to the difference in tuning with and without lefreQue.
- Play different fragments outside your comfort zone with difficult bindings or intervals. Feel the differences in ease of playing and pay attention to your intonation.

Joint exercise

- Play a scale together (long notes and without vibrato). Play it with, without and then with lefreQue again. First unisono and then in octaves. Listen to the difference in tuning and projection.
- Play a duet with any other wind instrument and pay attention to the differences in intonation.

We hope you enjoy these exercises. Thanks for trying lefreQue!
