

Precision engineering...

Unparalleled performance...

# Vincent Bach<sup>®</sup>

Model 42AF

A new Patented *∞ Infinity ∞* axial flow valve with top and bottom bearings allows for a smooth balanced action, low maintenance, no surface wear and superior compression.

The new mini-ball linkage allows free responsive movement.

Our new hand slide fabrication processes provide a quiet performance and smooth feel.

Our fixture mounted construction allows for proper alignment and freer vibration throughout the instrument.

**Model 42AF** - .547" Bore, 8-1/2" Yellow Brass Bell, Lacquer Finish

**Model 42AFG** - .547" Bore, 8-1/2" Gold Brass Bell, Lacquer Finish

**Model 42AFS** - .547" Bore, 8-1/2" Yellow Brass Bell, Silver Plated
